Mr Howland Wood.

Dear Sir,-

In respond to your letter of the eighth, I shall very glad to follow out your instructions on Aug 14th. with Mr Robertson. Understand me clearly Sir, that I don't choose to be anoying by my letters or this friendly visit as I have choose to set the date by meeting at your request.

Words can't express my thanks to you in forming me about my violin. I have been told for quite a number of years that I should inquire about the value of it that why I mention it in my previous letter. Regreting that my delay was due to so many calls to see about jobs of diffent things as long as its honest I would be glad to get that deprived me of an earlier call.

With Kind personal regards

I truly believe,

Sincerely.
